THE PAPUA NEW GUINEA UNIVERSITY OF TECHNOLOGY
DEPARTMENT OF OPEN AND DISTANCE LEARNING

STRATEGIC PLAN
2015 – 2019
Empowering and Transforming the Educational Dreams of Willing Learners
DEPARTMENT OF OPEN AND DISTANCE LEARNING

STRATEGIC PLAN
2015 – 2019
Empowering and Transforming the Educational Dreams of Willing Learners
FOREWORD

The Department of Open and Distance Learning Strategic Plan 2015 – 2019 is the department’s modest contribution to benchmark, as a way forward, three of the University’s institutional pillars – Externalization, Open and Flexible Learning and Entrepreneurialism.

The Strategic Plan lays the groundwork for the establishment and development of a bi-modal learning system beyond archetypes and conventions with the wisdom of exploring endless possibilities of quality education through wireless, seamless approaches and modalities transcending conventional methods and traditional print medium. The Plan also encompasses the need to work synergistically with domestic and international partners and institutions pioneering in flexible, open and distance education and adopt their cohort of educational networks and systems used in ODL, applicable to the local setting but global in context and perspective.

Young people are dreamers and DODL aims to fulfil their educational ambitions. As thousands of school leavers remain without selected spaces in the courses and institutions of their choice, the potentialities of ODL are a profound force to overcome society’s challenges and thresholds of illiteracy, poverty and ignorance. Thus, the contribution of DODL to break through the barriers of “selective” tertiary education due to the State’s limited capacity to meet demand vis-a-vis the increasing numbers of school leavers becomes an unwavering commitment to develop an informed and empowered citizenry in a knowledge society engendered by valued traditions and moulded by 21st century state-of-the-art technology. This will build the human resource capital of the nation over time.

Articulated through non-formal system of learning, the DODL Strategic Plan is not a mere slogan or an empty rhetoric. It is doable and its goals realizable as envisioned and enshrined in the University’s Vision 2030 and Papua New Guinea’s Vision 2050 of achieving “a smart, wise, fair, healthy and happy society by 2050” and beyond.
As DODL uses open and distance learning as an intervention measure to mediate and mitigate the serious concerns of limitations to educational opportunities in PNG, it will “take the first little step to reach the leap of a milestone”.

I would like to thank Prof. Abdul Halim, HOD – Agriculture, Mr. Eduardo S. Banzon, a/Director – TLMU, Mr. Roberto Soto, Senior Lecturer – Applied Physics and Dr. Enrico Mina, Senior Lecturer – Business Studies for their invaluable contribution and assistance in the preparation and completion of the DODL Five-Year Strategic Plan 2015 – 2019.

MR. PAUL NONGUR
A/Director
30 September 2014

INTRODUCTION

The PNG University of Technology (PNGUOT) becomes a dual mode university as it embarks its academic programmes to be offered through Open and Distance Learning using a blended mode of study and delivery as well as traditional on-campus mode since its inception in 1993. PNGUOT will ensure, within the limits of resource constraints, that parity is maintained between students studying on-campus and through external mode.

The broad policy of the DODL Strategic Plan aspires to

- raise the quality of teaching and learning and facilitate the convergence of on-campus and off-campus teaching and learning modes by promoting and facilitating the use of relevant interactive technologies and methodologies
- maintain an active program of research into alternative modes of teaching and learning in higher education
- publish and disseminate research results and ideas about external studies and ODL in general

With support from the central administration, respective academic departments will ensure that all study materials and support services for all course programmes in both modes of study are of the highest pedagogical quality and effectiveness.

DODL currently offers the following course programmes:

- Master of Science in Remote Sensing and GIS
- Bachelor of Agriculture and Rural Development (BARD)
- Diploma in Science (Physics, Biology and Chemistry) and Mathematics for Secondary School Teachers
- Matriculation

Based on registration figures in the last two academic school years (2012 and 2013), the potentials of ODL in the University’s two course programs, BARD and Matriculation, will increase in demand in the coming years based on a conservative estimate of 10% annual growth in student registration.
DODL started to offer Master of Science in Remote Sensing and GIS in 2013 with an initial intake of 16 students. This enrolment figure is expected to increase with the popularity of the programme.

Diploma in Science and Mathematics for Secondary School Teachers is a twinning program between the University and the National Department of Education but this could possibly be opened to self-sponsored teachers after due consultations with the institutional signatories.
VISION

"CONTINUE TRANSFORMING THE EDUCATIONAL DREAMS OF WILLING LEARNERS"

MISSION

To become a leading provider of quality programs of open and distance-based learning that are prestigious, affordable, accessible and appropriate in Papua New Guinea and overseas

CORE VALUES

  Commitment to Service

DODL shall extend learning opportunities to those who may otherwise not have had access to secondary and/or tertiary education. Distance education enables learning to be a lifelong process, critical for developing productive citizens of the nation.

  Excellence

Excellence in distance learning must be supported by commitment to instructional quality and effectiveness

  Ethical Behaviour

Creating and delivering distance learning programmes involve teaching and management commitment of the highest professional standards. Knowing that learning is a social function and obligation and inherently tied to context, distance learning experiences must support interaction by recognizing the contributions of all staff and students/learners.

Commitment to human resource development through behavioural standards which are transparent and socially, morally and legally acceptable
Partnership

Maintain and advance a partnership role with Study Centres, Academic Departments, National Departments, State and its Agencies and Industry through collaborative work and efforts on academic and administrative issues for the benefit of all concerned

Transparency

Engage and undertake activities and perform functions in an open and visible manner for all clients and stakeholders

GOALS

1. To provide quality secondary and tertiary education to the masses, mostly, those who may have been pushed out of the conventional educational system, adults and those that have not gained or accessed higher school certificates

2. To instil pride among its clients both learners/students and course owners (PNGUOT Academic Departments) in ensuring that certification and accreditation requirements are met

3. To be the best operational and logistical centre that is self-sustaining with qualified human resource capacity with quality staff support and network

OBJECTIVES

1. To provide quality secondary and tertiary education to the masses at an affordable cost through the distance mode

2. To design appropriate tertiary level courses that meet the real needs of current and future market place and the nation's development goals and aspirations

3. To maintain and harness a vibrant course/curriculum development and research unit in collaboration with academic departments
4. To increase accessibility to courses and programmes to reach a wider section of the country’s population and its immediate neighbouring countries by providing an effective mode of delivery mechanism

5. To provide quality and effective teaching and learning to achieve needed knowledge and skills by continuously upgrading the curriculum

DEVELOPMENTAL IMPERATIVES

The Department of Open and Distance Learning will be guided by the following principles:

1. Improvement and Implementation of Academic Quality Assurance Policy Framework
2. Leadership and Governance
3. Improvement in Resource Management
4. Creation of Regional Centres and Additional Affiliate and Franchise Study Centres

1. Improvement and Implementation of Academic Quality Assurance

Interrelated factors to this imperative:

1.1 Quality Assurance Policy Framework

Review of academic policy framework to improve processes and mechanisms aimed at implementing a more responsive policy framework
1.2 Appropriate Curriculum

Review of all existing course programmes (Adult Matriculation, Undergraduate and Post graduate) to improve and update contents aimed at producing quality materials and quality graduates

1.3 Development of Post Graduate Programmes

Develop post graduate level courses with the assistance of Academic Departments to meet the in-country and overseas demand

1.4 Appropriate and functional infrastructure such as lecture rooms, IT equipment and affordable communication network

Development and adoption of a recapitalization programme of all replaceable equipment and instruments with state-of-the-art infrastructure and facilities to support ODL teaching and learning

1.5 Effective and sustainable engagement/interaction with regional/study centres and stakeholders

Formalize all international and local linkages and networking with existing and new institutions and continuous collaborative interaction of this agenda

2. Leadership and Governance

Institutional development needs effective and qualified leaders for good governance. This leadership is to be provided by the Head of DODL, Head Quarter staff, Study Centre Coordinators and Tutors and supported by the University Administration, including Academic Departments.

3. Improvement in Resource Management

DODL, like any academic institution, needs effective resource centres with libraries, specialist laboratories, ICT Labs and fully functional infrastructure.

The resource requirements of this development will be defined and reflected in the resource structure of the department/study centres.
4. Creation of Regional Centres and Additional Affiliate and Franchise Study Centres

Regional Centres and additional Affiliate or Franchise Study Centres need to be established to accommodate the growing demand for the programmes/courses and the expansion of the institution's (PNG UOT) presence in the country and the Pacific.

ENABLING FACTORS

1. Human Resource
   - Recruitment
   - Training
   - Retention

2. Infrastructure
   - Academic and functional building

3. Programmes: Centre-based and On-line
   - Matriculation
   - Undergraduate
   - Post graduate

4. Curriculum Development, Review and Improvement
   - Formation of Curriculum Development Committee for each Program
5. Development of Study Centres
   - Regional Centres
   - Study Centres
     - Affiliate
     - Franchise

6. Teaching Methods and Materials
   - Diverse delivery methods to reach more learners

7. Partnerships and Linkages
   - MOUs/MOAs with relevant institutions, national and overseas

8. Student Support Services
   - Enhancement of guidance and counselling

9. Entrepreneurialism
   - Identification and development of students' business attitudes and skills to enhance their earning potentials

10. Research and Development
    - Creation of DODL Research Centre
**ENABLING FACTOR 1**  
**Human Resource**

**Strategic Goal:** Increase the number of highly qualified and skilled staff who can carry out the departmental activities and respond responsibly and creatively to the challenges and opportunities.

</tr>
</tbody>
</table>
CONCLUSION AND RECOMMENDATIONS

The DODL Five-Year Strategic Plan is a comprehensive guideline of what to achieve during the period of its implementation until its completion. It is an action plan that incorporates aspects of financial independence to veer away from the cycle of fiduciary dependency. The implementation and management of the plan depends on the unequivocal support of the University hierarchy from the Vice Chancellor to Registry and Human Resource Department to the Planning and Project Offices and staff who will provide the academic and technical expertise to DODL.

The following priorities and timelines are highlighted for implementation:

- Approval of the Organizational Chart 2014
- Approval of Quality Assurance and Assessment Policies 2014
- DODL Website operational 2014
- Implementation of Quality Assurance and Assessment Policies 2015
- Recruitment of staff 2015 – 2016
- Additional Study Centres 2015 – 2019
- DODL Building 2015 – 2016
  - Department Library 2016
  - Research Centre 2016
- Centre-based Diploma Course Programs 2016
- Establishment of DODL Regional Centres 2016
- On-line Diploma Course Programs 2017
- e-Library established and operational 2017
- Centre-based and On-line course offerings 2018
From this to something like this
